Sir:

In the Examiner Interview conducted on March 3, 2008, the Applicants' representatives pointed out the differences between the Applicants' claimed invention and the reference of Xu et al. (U.S. Patent Application Publication No. 2002/0070961). In particular, the Applicants' representatives stated that the frames in Xu are not object pictures and that Xu does not disclose an object program, as recited in the independent claims. Finally, the Applicants' representatives stated that Xu only discloses a focusing between two frames, as opposed to between an object picture and a markup picture, as recited in claims 5, 6, 13, 17, 21, and 22.

Respectfully submitted,

STEIN, MCEWEN & BUI, LLP
